SUMMARY

Second-year B.Tech student at MANIT Bhopal and BS Data Science student at IIT Madras. Built and deployed machine learning and NLP applications using Python, Scikit-learn, Flask, and Vercel. Interested in machine learning, data science, and AI-powered products.

SKILLS

- **Languages:** Python, JavaScript
- **Frontend:** JS, HTML, CSS
- **Data Science & ML:** Pandas, NumPy, Scikit-learn, Seaborn, Matplotlib, Statistics, NLP, SQL
- **Tools & Platforms:** GitHub, VS Code, Jupyter Notebook, Google Colab, Vercel
- **Backend:** Flask

PROJECTS

- **House Price Prediction System** Live | GitHub | ML Project
 - Built and compared regression models (Linear Regression, Ridge, Random Forest), achieving an **R² score of ~91%** on validation data.
 - Performed in-depth EDA to uncover key price drivers and handled missing values, outliers, and skewed distributions.
 - Deployed as an interactive web application using **Flask**, allowing users to input property details and get instant price estimates.
- **SMS Sentinel AI** Live | GitHub | NLP Project
 - Preprocessed SMS corpus using NLP techniques: tokenization, stopword removal, stemming, and **TF-IDF vectorization**.
 - Trained a **Logistic Regression** classifier achieving **96% accuracy** in spam vs. ham detection.
 - Gained hands-on familiarity with the NLP pipeline, from raw text cleaning to feature extraction and model evaluation.
- **Customer Churn Prediction System** Live | GitHub | ML Pipeline
 - Analyzed a telecom dataset to identify behavioral patterns and key churn indicators across customer segments.
 - Built a classification pipeline using **Scikit-learn** with feature scaling, encoding, and hyperparameter tuning.
 - Deployed the trained model via **Flask**, and Achieved ROC-AUC score of 0.80 on unseen test data.
 - Integrated a live frontend on Vercel, providing an end-to-end deployable ML product.

EDUCATION

- **Indian Institute of Technology, Madras** 2025–2029
Bachelor of Science in Data Science & Applications
- **National Institute of Technology, Bhopal (MANIT)** 2025–2029
B.Tech in Materials & Metallurgical Engineering

ACHIEVEMENTS & CERTIFICATIONS

- **IIT Madras BS Foundation Level Completion** — Successfully completed the Foundation Level of the IIT Madras BS in Data Science & Applications program. [Certificate]
- **Claude 101 Certificate** — Completed Anthropic's Claude 101 certification, demonstrating proficiency in working with large language models and prompt engineering. [Certificate]
- **Bid2Code Hackathon, NIT Bhopal** — Participated in the Bid2Code competitive programming and development hackathon organized at NIT Bhopal.
